40 FT BULK LIQUID STORAGE

40ft Bulk Liquid Storage

SCF's 40ft Bulk Liquid Storage Tank makes bulk storage safe and easy. Transport to and from site with ease.

Details

SCF's 40ft Bulk Liquid Storage Tank is the newest addition to our fleet and the first of its size. With ISO certification, the footprint enables easy transportation to and from remote sites.

These tanks have a static storage capacity of up to 69,000L (440BBL) and are fitted with brackets for internal mixing system suitable for applications such as water treatment and chemical storage.

Designed to be versatile in application, the 40ft Bulk Liquid Tank can connect in sequence to create greater storage capacity for large-scale projects.

This product range is designed by SCF's in house engineering team and is built strong to endure the harshest conditions.

Key Features

- Inlet connections
 - 4 inch bauer coupling with butterfly valve
 - 4 inch camlock coupling with butterfly valve
- Forklift pockets
- Front and rear drain valves
- Toolbox for connection storage
- AS1657 compliant stair and gantry systems

Options

- Galvanised steel
- Mounting points for agitators
- Various linings for acid application

Specifications

40ft Bulk Liquid Storage | FR40S

Specifications may vary

Volume

Litres	69,000
m ³	69

External

Length (mm)	12,192
Width (mm)	2,438
Height (mm)	2,997

Weight

Tare (kg)	11,200
Payload (kg)	96,000
MGW (kg)	11,200

Top:
One tank can store
up to 69,000L, or
440BBL of liquid
on-site.

Middle Left:
Stairs and
fold-able handrails
provide safe
access to the top.

Middle Right:
Bulk Liquid Tanks
can be quickly
deployed.

Below:
AS1657 compliant
gantry and stairs
provide added
safety when
operating from the
top of the Tank.
